

Application Guidelines

Make a 3-5 minutes video following the guidelines below;

- Carefully read and understand the above video set questions before recording.
- You can use your smartphone/camera for recording.
- Keep the video short! Aim at maximum 5 minutes.
- Please hold your smartphone in landscape format
- Please look into the camera and not at yourself.
- Try to avoid backlit-settings (this is when the sun is behind the person on the video). Shoot in natural light, not in-side if possible.
- Look for a windless and calm spot to avoid background noise. Take a short sound test to see if the sound is good.
- Use a selfie stick or another person can hold the phone for the video to be more stable.
- Please record the question you are responding to as well (also if you are doing the interview by yourself).

Below are the questions to guide you in making 3-5 minutes video. Please be precise, with Clear sound and focus. **Videos exceeding 5 minutes will automatically be disqualified.**
